MUTINY QUELLED BY THE TROOPS

Was Much Destruction, and
Bloodshed at Kronstadt.

The Trouble May Be Over Only Tem-
porarily, It Is Thought by Those
in Position to Know.

THE RUSSIANS ROB PASSENGERS

London, Nov. 10.—The correspond-
ent of the Reuter Telegram company
at Kronstadt wires today that the
mutiny is suppressed and the authori-
ties are master of the situation. Large
numbers of trusted troops have
arrived to assist in preserving order.

To Over-Awe Finns.

Helsingfors, Nov. 10.—The man-
ifestoes of this city have decided to
pay the strikers fifty per cent. of
their wages during the time they were
on a strike. Recently, dispatches
from St. Petersburg say that Grand
Duke Vladimir on Monday ordered a
brigade of guards and two batteries
of heavy artillery to reinforce the
troops sent to Helsingfors to overawe
the Finlanders who are making de-
mands for freedom.

Troops Rushed to Kronstadt.

Paris, Nov. 10.—A dispatch from
St. Petersburg says that all the
available troops there are being sent
to Kronstadt. Among the reinforcements
are detachments of artillery.
Armaments at Kronstadt have been
plundered and arms stolen by the
mutineers.

Railway Strike Ends.

London, Nov. 10.—The correspond-
ent of the Reuter Telegram company
wires that the railway strike at
Helsingfors, has ended.

Order Partly Restored—Many Dead.

Copenhagen, Nov. 10.—During the
past Wednesday night mutineers
were employed against the authori-
ties who had just been joined
by a battalion of artillerymen
from the fortress and who raised
the total number of mutineers to
3,000.

It is difficult to ascertain the num-
ber of casualties, but the officers
place the figure at 200. Many of
the wounded persons are in the hospi-
tals.

Rebels joined in the pillage, but
the workmen did not participate in it.
Many of the workmen and civil-
ian population have either fled or are
trying to flee the city and the docks
are piled high with baggage and
household effects.

Fire is still glowing in the marts
and other group of buildings, but
order is well restored.

Stores and houses are looted up,
and troops are patrolling the streets.

Though a majority of the muti-
neers have surrendered, several hun-
dreds are still holding out in the east-
ern section of the town. They have
thrown up barricades but are sur-
rounded and machine guns are posted
at all streets leading to the strong-
hold. It is expected that the remain-
ing of mutineers will submit to-
morrow.

Russian Crew Mutilated.

Vienna, Nov. 10.—It is reported
that the crew of the Russian steamer
Tsimliu which sailed from Odessa
recently, mutilated and robbed the
passengers of all their money.

Many Smoldering Ruins.

Kronstadt, Nov. 10.—The heavens
reflected the glare of the smoldering
fires as a correspondent approached
Kronstadt last evening.

Upon landing, however, hurried in-
quiry revealed the fact that troops
and loyal sailors apparently had the
upper hand.

The fighting had ceased in the
streets and the town was quiet, but
fears were expressed that there
might be further trouble later.

The outbreak started when the
sailors of the "Severnyy Polk" re-
volted and, it is rumored,
killed some of their officers. They
marched out of the barracks and im-
mediately plundered four shops.
Carried with liquor they returned
and seized their arms, and then went

THE BALLOTS WERE GUARDED.

New York, Nov. 10.—Under the
direction of Attorney General Mayor,
of the state of New York, with the as-
sistance of District Attorney Jerome
the grand jury today began an investi-
gation of the charge of fraud and
prostitution of the ballot made in con-
nection with Tuesday's election. Whether
or not indictments will be returned
against the election officials is a matter
of conjecture.

Fusion Candidate Wins at Memphis.

Memphis, Tenn., Nov. 10.—James
H. Malone, one of the best known
lawyers in Tennessee, was elected
mayor of Memphis on the independ-
ent Democrat ticket defeating J. J.
Williams, Democrat, who had held
the office eight years. The entire in-
dependent ticket is probably elected.

Southland City Ticket.

Southland, Ky., Nov. 10.—The
Southland Democratic city ticket,
headed by Judge W. F. Cowper, for
city judge, and S. C. Kendall for mar-
shal, was elected by good majorities.
The members of the board of trust-
ees elected are T. C. Holt, Geo. L.
Crawford, I. Brundetter, T. D. Pres-
nell and Dr. L. D. Adams.

Guarded the Ballot Boxes.

St. Sterling, Ky., Nov. 10.—Re-
ports from Jackson state that, while
Judge James Hargis has been de-
feating by 752 votes, he will contest
Thurber's election as will the rest of
the Democrats.

The feeling is very high and the
Hargis are keeping indoors. The
Hargis followers claim illegal vot-
ing and fraud as grounds for the pro-
posed contest. The Fusion forces are
thoroughly organized and will resist
any effort to rob them. A Mr. Ham-
monds states that Judge Hargis and
Callahan are in great danger of per-
sonal violence.

The Fusion people have complete
control of Jackson and watched the
ballot boxes with armed guards until
the official count began.

Found Ballot Boxes in River.

New York, Nov. 10.—Attorney
General Mayor stated today that he
had received information of the re-
covery from North river of certain
ballot boxes used in the election Tues-
day. He said the matter was under
investigation. A ballot box alleged to
have been stolen and discovered by
accident last night was taken to Dis-
trict Attorney Jerome's office and
closely examined.

Mayor McClelland to Fight Some Too

New York, Nov. 10.—Mayor Mc-
Clelland has made public the follow-
ing statement:

"The election returns show my
lection by a plurality of 4,180 votes.
These returns are the results of pro-
cedure prescribed by law, and they
are expressly declared by law to be
presumably correct. I believe they
are correct. Therefore, I will take all
legitimate means to protect my
rights, as well as those of the voters.
If my adversary appeals to the law
to overthrow what are now legal re-
turns of the results of the election, I
will meet him fully prepared to vin-
dicate these results to the courts
where these differences must be passed
upon every candidate and every
citizen should readily submit."

Frank Charged in Fulton.

Fulton, Ky., Nov. 10.—The Demo-
crats of Fulton county are wrought
up over what they claim was an open
steal of the county judge's and cir-
cuit clerk's offices in Tuesday's elec-
tion. Luby Hargrove, Democratic can-
didate for county judge, and James
Milner, candidate for county clerk,
carried every precinct in the county
by more than the usual majorities,
except two precincts in the town of
Hickman. In Hickman it is claimed
that gross fraud was perpetrated and
974 votes were polled which are nearly
200 more than were polled there be-
fore. Democratic leaders charge that
it every taxpayer in the two
Hickman precincts had voted the
vote could not have exceeded 700.
On the face of the returns Hargrove
and Milner have lost by about thirty
votes. They will contest the election,
and their friends are confident the
Hickman precincts will be thrown out.

60 Indictments Ready.

New York, Nov. 10.—The grand
jury adjourned this afternoon to
meet again Monday. It is ascertained
that ten indictments for election
frauds were drawn up to be filed
with Recorder Goff Monday.

IN GOOD SHAPE.

Florence Story today filed suit
through attorneys Grassham and
Threlkeld against George Gibbs for
\$5,000 damages for breach of prom-
ise.

The petition states that the girl
is under 21 years of age and five
years ago met and kept company
with Gibbs who promised to marry
her. She presented herself to him on
several occasions to fulfill her agree-
ment but he refused, setting the date
forward constantly. Finally he aban-
doned her altogether and she now
states she is in a delicate condition
and suffering a great humiliation and
shame and thinks she is damaged in
the sum of \$5,000.

All Electrical Apparatus Must Be If Used in Theater Hereafter.

Hereafter Inspector Gilsdorf will
inspect all the electrical apparatus
used in theaters at the Kentucky,
and in case he finds any in bad
condition, will require that they be
repaired before used. It is claimed
that some of the companies bring
here for use machines, etc., that are
in bad condition. The council last
night authorized the city electrical
inspector to inspect all such devices
and see that they are in proper
shape.

But They All Escaped.

San Luis, Cal., Nov. 10.—The Ra-

with three hundred rooms and filled
with eastern tourists, largely women
and children, burned early this morn-
ing. There was a panic among the
guests but all escaped, saving their
baggage. The loss is a quarter of a
million. The fire started in the
kitchen which was in a separate
wing.

Columbus, O., Nov. 10.—Indi-

Republicans have elected all the can-

ernor and possibly lieutenant gov-
ernor. Returns are too meager to clear
up the doubt.

A line northwest to Cairo is soon
to be started by the Paducah Home

the local office an outlet to St. Louis.
This will be a big thing for the Padu-

FRISCO TO HANDLE BUSINESS HERE

Will in Ten Days Start a Barge
Transfer System.

Two Trips a Day Contemplated and
Only Freight Business Is to
Be Handled at Present.

ROAD TO BE BUILT LATER

Within ten days the Frisco rail-
road may have connection with Padu-
cah, giving it a road to Nashville,
Tenn. Mr. G. H. Kummer, traveling
freight agent for the Frisco, is in the
city working up business for his road
and is authority for the statement
that the road may be working with
Paducah in ten days.

This news will come as a surprise
for it was thought by many that the
road was going to build up on the
Kentucky side from Joppa, Ill., twenty
miles below here, but for the present
a towboat and barges will be used.
Later the road will be built.

Mr. Kummer stated that two or
three trips will be made a day but
probably two for a while. He said
there would be no passenger business
handled at present as the company
desired to handle only the freight
business from Joppa to Paducah. A
large barge, probably built of steel,
which will hold ten cars will be used
and a boat will tow them here and
unload them at the N. C. and St. L.
Incline, which is near the Iron fur-
nace, on South Third street. The
freight will then be hauled over the
road's tracks. When the boat returns
to Joppa she will take back a load.
It is proposed to make one trip in
the morning and the other in the af-
ternoon. Of course if the business be-
comes so voluminous as to necessi-
tate it, more trips will be made and
more barges will be secured.

The towing plan will be temporary
as the road intends to eventually
build into this city, but desiring an
immediate connection with the N. C.
and St. L. it has decided on the boat
business. The road expects to get in
operation with this city in ten days
but it may not get started so soon.

Mr. Kummer is here to work up all
the business he can for the road. It
will compete with the Illinois Cen-
tral and may eventually mean a low-
er freight rate into and out of Padu-
cah, which will be a big thing for the
city and the business men. Mr. Kum-
mer succeeded Mr. E. J. Knickerbocker
a few months ago.

Mr. Kummer said before leaving
the city this afternoon, that if the
present plan is carried out, the Frisco
will use the big towboat Davis and
barge between Joppa and Paducah.
The complete equipment for handling
the freight business is now ready, he
stated. The Davis was formerly in
the transfer service at Thebes, Ill.,
before the new bridge was finished.

It is understood that the Frisco's
only obstacle is the N. C. & St. L.
with which arrangements have not
yet been completed to handle the busi-
ness.

The Clothes of Gentility

No matter where you go, your Clothes proclaim what you are. They cry out your standing, your condition, your taste and your refinement—or lack of it. Nothing reveals character so quickly. An ill-fitting, poorly-made garment repels. The stylish, well tailored raiment charms. All Atterbury Clothes are of the latter kind, and the prices thereof are no higher than others ask for the other kind. Machine-made Clothes must necessarily evoke ridicule—it is only a matter of hours. But the hand-tailored attire, such as Atterbury, requires no effort on your part to preserve its dignity and repose.

WINTER BASEBALL YARNS COMING EARLY

The baseball fans in the east and west have been getting their fill of winter baseball yarns a little earlier than usual. The general trend has been toward consolidation of major leagues, but that is simply in line with what has been handed out for the past two years. They say that where there is smoke there is fire, and probably it is true in this case, but the chances are they will be smoldering for some time to come.

However, there is no denying the fact that many of the big league managers would like to bring about an amalgamation of the two leagues and the chances are that something will come of all this talk within the next two or three years, but not before.

The past season was a very prosperous one in the two big leagues, and it is not to be expected that the managers who were lucky enough to be on the winning side financially will want to go into an immediate consolidation where they would be called upon to dig deep down in their pockets and contribute handsomely towards such a scheme. It is more likely that instead of consolidation there will be an understanding where by the National League may induce two and possibly three of the American League clubs; that is, where there are two clubs in each city, to sell out and fill out the circuit by taking in some of the best cities in the eastern league. For instance, if St. Louis and Boston, of the American League, were willing to sell out to the National League clubs, it would be an easier matter to take in Providence and Baltimore in the east, and if New York could be added to the list Buffalo would fill in nicely as the three cities that would necessitate the change in the pairing off of the clubs.

If an arrangement could be reached on the basis as outlined above, the American League could go along with a major organization just the same, but probably with less expense. These are little probabilities of the National League buying out the American League clubs as a whole, for they had too expensive an experiment when they bought out the Brotherhood in 1900, and they will not be caught napping again. To be candid, there is no reason why there should not be two major organizations, but they would be more successful with less opposition in the various cities than under the present

system. It is only natural that where one league has a winning club in a certain city and the other a loser, that the club with the winning aggregation.

Therefore the plan to buy out say two or three of the clubs and substitute other cities for them seems to be the most likely change that will come during the next few years. There has been considerable talk about the American League dropping Detroit or Louisville, but such a move would be a poor one at this time, as it would admit the weakness of the organization and at the same time lower its standard in the eyes of the fans, especially after the defeat of the two American League clubs. It is almost a certainty that the American League will go on with the circuit as made up at present.

Will Probably Lecture in Paducah on
Forrest.

The committee on the Confederate Veteran Monument fund is arranging to have Judge Tyler of Hickman deliver his lecture on General Nathan Bedford Forrest here very soon. Judge Tyler was an officer under General Forrest and lectures very interestingly of the dashing Tennesseean. He will be here during the coming session of United States court and the date will be set then. It will be given at The Kentucky and will be made a notable occasion. Dr. D. G. Murrell is chairman of this committee and the local chapter of U. D. C. are assisting in the work.

The W. C. T. U. Meeting.

The W. C. T. U. of Paducah held its regular meeting yesterday afternoon at 3 o'clock in the lecture room of the First Baptist church. After the miscellaneous business which included the reports of the various committees, Mrs. Anna Friant, superintendent of the department of literature, was in charge of the exercises.

It was the first meeting of this department and Mrs. Friant stressed the importance of it by an earnest talk on its wide scope and power for good. Readings and talks along this line followed and the meeting was one of more than usual interest. The same subject will be taken up at the next meeting, November 16, and a cordial invitation is extended to any one desiring to attend.

The tailoring that goes into an Overcoat imparts to the garment its grace and individuality. No matter how good the fabric poor tailoring spoils the effect. Hand tailoring produces the best results. All our better Overcoats are tailored by hand. The new Paletot skirted overcoat, and the Continental, long box overcoat, are pleasing men of discriminating taste.

Theatrical Notes

"What Women Will Do," said to be the most wonderful sensational play on tour this season, is booked to appear at The Kentucky on Tuesday night. The piece comes well recommended from all the larger cities where it has been this season. The play deals with a clever story of every day life, in which love, sensation and adventure play an important part, also some marvellously wonderful stage craft is introduced and the sensational storm at sea in which a life-size boat is turned upside down in full view of the awestricken audience, and the leap for life from the high cliff, a desperate death struggle, the life saving station and many hair-raising effects and scenes should give scope for the audience to remark and admit that it is without a doubt the most interesting play booked at this popular playhouse this season. The large attraction should draw large houses. It is under the management of Holden Bros., who need no introduction to the theatre-going public.

Murray and Mack, the popular producers of Irish comedy will be seen this season in an entirely new effort entitled "Around the Town," which has been written with a view to fit their personality. That the author has succeeded is an established fact. It is a story of Irish life in New York City and the complications follow in rapid order. Strong specialties, big company, beautiful costumes, full equipment of scenery, a chorus of male and female voices are some of the features of this new production.

LITTLE NEW BUSINESS BEFORE ALDERMEN

The aldermanic board met in regular session last night and transacted a great deal of business but did little more than ratify the action of the lower board which met the night before.

Adrian Bell was the only member absent.

Arthur Kirkland and Clerk Bailey were in trust to officially invite the guests to the dinner at the hotel when the five are at a good stage.

The request of the bank factory people to be exempted from paying a license was refused. They are exempted from paying taxes and think this is a license.

The ordinance committee was ordered to look in a measure prohibiting hitting to shade trees on pavements.

The matter of planning shade trees on South Third street was referred.

Mayor Yelver was authorized to pay a 16-foot strip of land from Mrs. Sallie Morrow to open up the sidewalk from 4th to 6th streets.

Mayor Yelver reappointed Fire and Police Commissioner John Bonis for four years. His term having expired. That appointment was ratified.

The matter of taxing the Baptist orphanage at Louisville for property

owned here was referred. The aldermanic board has decided that this institution can not be taxed, in Louisville, but the aldermen here think this does not include outside property.

A bill of \$300 for attorneys fees to Hendrick & Miller for services rendered in conjunction with the city auditor, was referred.

The judgment of several hundred dollars in the case of McMeyses against the city, was ordered paid off.

The matter of accepting a dedication of property on West Jackson street from Ben Weille, W. A. Gantner and others for street purposes, was referred.

The city to grade and gravel it, was referred.

Mayor Yelver was instructed to borrow enough money to pay running expenses and collections come in a month.

The board allowed a bill of \$175 for a book typewriter machine for the clerk's office.

The treasurer's report showing a balance on hand the first of November of \$93,963 was received and filed.

The sale of the city tax bill was ratified. It brought \$4,500 and was bought by the city through Auditor Kirkland.

The following ordinances were adopted:

Ordinance compelling sewerage

connections in the sewerage district of 27 new houses. Final passage.

Ordinance for improving Hayes avenue first passage.

Ordinance for improving Sowell street first passage.

The water company was ordered to extend mains on Jefferson street from 14th to 16th streets, and on 15th from Jefferson to Clay.

The reports of Mr. Chief Wood, Chief of Police Jas. Coxing and Electrical Inspector Wm. Glaser, for October, were filed.

Nichols and DeLoe were granted a liquor license at 9th and Bay 1 streets.

The liquor license of A. S. T. 100 was transferred from 121 North 2nd to 417 Jefferson.

Several claims of erroneous tax assessment and collection were referred.

Oliver Overstreet was refunded \$20, and Harry & Hennobler, \$27, excessive license collected.

Engineer Washington was ordered to survey in Louisville to determine the city limits and make it possible to correctly assess property. T. G. Miller alleged his property is outside the city limits.

The complaint that Street Inspector Elliott has been taking city brick and using the city carts to take them to his house was referred. Inspector Elliott claims he paid for the brick and also for the carting away and has the treasurer's receipts for his money paid. He filed a statement with the board.

A had hole in Geofol avenue was ordered repaired.

The petition from men to have the city electric light plant enlarged to furnish central light and compete with the electric light company was referred.

On motion the board adjourned.

Small Mishaps.

Ed Burton, employed by the sand company, was painfully hurt about 8 o'clock last night by a cable hitting him in the head. Dr. J. D. Robertson attended him and found that the injury is not serious. Burton lives at 523 Jackson street.

Lee Hart, employed in the bottling department of Dreyfus & Well, had a hand painfully cut last night about 8 o'clock by a bottle bursting. Dr. J. D. Robertson attended him.

Daily Thought.

"The waste of life lies in the love

which will risk nothing and which

shrinking pain, misses happiness as

well."

THE CAT OUT OF THE BAG.

The cat is out of the bag. Smart-

ing over defeat, the Owensboro Mes-

senger, one of the few papers that

advocated a return to the viva voce

system of voting, now claims that

bolting is what causes Democratic de-

feat, and in the following virtually

admits that the Democrats think the

secret ballot permits bolting: "It is

the secret ballot that has encouraged

the bolting habit to such an extent

that it seems folly to longer go to the

trouble and expense of holding pri-

maries in close cities or districts. The

Democrats should, therefore, hereaf-

ter save their time and money and

put up 'blatant,' as the Republicans

do, and take their chances in general

elections. Fair primaries, such as

Owensboro Democrats always have,

are manifestly no strength, but in-

deed have proved a weakness to the

party."

This is only another proof of D-m-

ocratic hypocrisy in attempting to

foist on the people the viva voce sys-

tem of voting. There was never any

valid reason for wanting to go back

to the old way. The object of the

Democratic machine's supporting it was

to go back to the old way solely to

keep the Democrats in line, and pre-

vent their voting as they please. The

real reason the Democrats wanted the

viva voce system, as shown by the

Messenger's statement, was not to

prevent fraud, as they would have

the people believe, but to prevent

'bolting'—and Democratic defeat.

Never were two weeks spent to bet-

ter advantage than those devoted by

President Roosevelt to his dash

through the south, says Collier's

Weekly. The president cleared up all

the misunderstandings that had alien-

ated a section temperamentally in

sympathy with him, and did it with-

out abating or concealing any part

of his principles. There were only two

flaws in the pure delight of his ex-

cursion—one the irreconcilable hos-

tility of Governor Vanderman of Mis-

sissippi which deprived the president

and the people of that state of the

mutual pleasure of a meeting, and

the other the promptly rebuffed indi-

cation of Governor Davis of Arkans-

as in making the presidential re-

ception the occasion for a harangue

in favor of lynch law. The little in-

cident of the collision after leaving

New Orleans, when the president's

steamer had to be heached to keep

her from sinking, is not to be enter-

ed on the debit side of the ledger.

That was a new and exciting experi-

ence—a distinct addition to the plea-

sures of the tour. Besides, the Kaiser

never got shipwrecked.

The people of Henderson for

months had been talking about iss-

uing bonds for gravel roads and then

Tuesday most of them went to the

polls and forgot to vote on the propo-

sition. There's no use talking, all

the evils to which a country, state or

city is subject can be remedied at

the polls if the people will but take

the trouble to go out and vote right.

The people of Henderson could have

secured gravel roads if they had only

thought to go out and vote for them.

They forgot, and now must do with-

out.

About the most chagrined people

in the state are those in Smithland

and Livingston county, where Repub-

licans were elected Tuesday for the

first time in years. If not in the his-

tory of the county. The Democrats

had made it a sort of perpetual mo-

tion affair. They swapped offices in

the course of years, and a few men

were never without some sinecure.

The people finally caught on and

turned them all out. And they are prob-

ably out for good.

It is a sore crowd in Livingston

county, and the Democrats are show-

ing their resentment of defeat by

claiming that "niggers did it." If

"niggers did it," why have they never

done it before? How does it hap-

pen that they did it this time? The

fact is that the Democrats did it.

They became tired of rag rule and de-

cided to put the ring out of business.

And they did it.

A lot of alleged corrupt political

machines were overthrown at the last

election. Some of them were Demo-

cratic and some were Republican. It

was a good thing for the public in

either case. When a political ring gets

a constituency by the throat, it should

be exterminated.

HOSPITAL BOARD

L. C. MEN HELD A MEETING TO-

DAY.

Reports Heard and Hospital Addition

Work Postponed Until Next

Spring.

The L. C. hospital board met this

morning and after half an hour's ses-

sion adjourned without doing any-

thing of importance. This was the

regular quarterly meeting and all

members of the board except Supt.

Henry Schenck, of the Evansville

District, and H. McCourt, superin-

tendent of southern lines of the L. C.,

were present at the meeting.

Those in attendance were Supt. A.

H. Egan, of Louisville division; Supt.

J. J. Gavin, Tennessee division;

Roadmaster T. J. Hill, Tennessee di-

vision; Dr. D. G. Munroe, assistant

general surgeon, of this city.

The report of the work in the hos-

pital were gone over and the busi-

ness of the past quarter minutely in-

spected. The matter of building a

contagious ward was postponed un-

til next spring. This work was in-

tended to begin before fall, but on

account of unforeseen delays, was

never started.

Mr. Egan left at noon on his pri-

vate car for Louisville and Supt. Ga-

vin and Roadmaster Hill will return

south this afternoon.

TURKEYS ARE HIGH.

There is said to be a scarcity—To

be Higher at Thanksgiving.

The popular Thanksgiving turkey

is going at a rather high price and as

Thanksgiving approaches the price is

expected to go higher.

Turkeys, dressed, are selling on

market at 15 cents and undressed at

12 1/2 cents a pound. Ordinarily,

turkeys should sell at 10 cents un-

dressed and they have been bought

for 8 and 9 cents.

Reason for the extraordinary high

price is that there is a scarcity of

turkeys in the country and before

the holidays arrive the gobblers are

to be much higher.

Marketmaster Frank Smedley stated

that turkeys were too high but

that it was due to the scarcity of the

fowl and that as Thanksgiving is near

there is a demand for them, hence

the advance in price. He was of the

opinion that a turkey, undressed,

ought to sell at 10 cents, not more

than that.

"Nope." "What's it used for?" "None

"Goodness!" exclaimed the policy-
holder, "I hope no more of these in-

MYSTERIOUS ASSAULT

Drug Clerk Hit by Unknown Man and Painfully Injured.

Dr. B. I. Brantly, manager of the Hayes pharmacy at Seventh and Broadway, was attacked last night about 9:30 o'clock and rendered unconscious for some time by two unknown young men who had come in to buy cocaine and been refused.

Dr. Brantly was struck above the left eye and on the left cheek with some kind of an instrument, but can not say whether or not more than one blow was struck. The skin was not broken, but two long red marks show where the instrument landed.

"I was seated near the stove talking to a friend, Dr. Brantly explained, and my companion started to leave. I told him I intended closing shortly and going home myself, and as he left the front door in the middle, two young men about 20 years old entered by the west door in the end of the building. They wanted cocaine and I told them I could not sell it without a prescription. One came in front of me and stated he intended having it making gestures of a threatening nature. I procured my gun and told him to get out of the house at once, and no sooner had I spoken than his companion who had come up behind me, struck me on the side of the head.

"The blow felled me and I lay with the gun in my hand until Rev. W. E. Cave came in and picked me up. I was still unconscious and when my sense returned I was sent home and Dr. S. D. Robertson called to dress the injury."

Dr. Brantly says he would recognize one of the boys again if he saw him. They did not seem to be drinking but were evidently in an ugly mood and became angry when the drug was refused to them.

This morning Dr. Brantly's head is swollen but he is able to be at the store.

PROGRESS MADE

At Fairview, Near Golconda, Ill., Opposite Carversville.

Mr. John Mulholland, formerly of the Seacoast company here, seems to be making a success of his new town and mine at Fairview, Ill., opposite Carversville, Ky., a few miles above Smithland.

The Carversville correspondent of the Livingston Banner says:

Mr. E. S. McGee has been appointed foreman of the building and construction work of the Fairview mines by Mr. John Mulholland.

Mr. Mulholland says he has been better located by Kentuckians than any other people. He intends erecting stock sheds and also to establish a ferry at this place for the benefit of his Kentucky friends. He is going to offer several premiums, one of \$20, \$15, etc., for the woman who keeps the cleanest yard in his new concrete town. Numbers of other improvements will be made.

Cured Consumption.
Mrs. B. W. Evans, Clearwater, Kan., writes: "My husband lay sick for three months. The doctors said that he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago. Since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50 and \$1.00. Alvey & List.

BRUTAL CRIME OF METROPOLIS MAN

Negro Fractured His Wife's Skull for Calling Him a Thief.

Up to Wednesday Not An Arrest Had Been Made in Metropolis For Two Weeks.

A YOUNG LADY IS VERY ILL.

Metropolis, Ill., Nov. 10.—A more brutal act than that committed by Frank Crossland, colored, at an early hour Wednesday morning, has not been recorded in this city in years. With a three-cornered club about three feet long and weighing several pounds, he attacked his wife on her way to work, and beat her over the head in such a horrible manner that death is hourly expected. Leaving her insensible he went to the jail and calling Sheriff Smith requested to be locked up as he had "slapped a woman down." The sheriff and his son, after further questioning him went in search of the woman and found her still unconscious and covered with blood. She was removed to her home where an examination of the injuries showed three long gashes, one at the back of the head, one across the forehead and one on the side of the head each over six inches in length and penetrating to, and either cracking or fracturing, the skull in each instance. Forty-eight stitches were taken, and that death was not instantaneous is a mystery. The cause of his attack upon her as given by himself was that she had accused him of stealing. Crossland is a well known character, and while known to be lazy and worthless has never been in serious trouble before, while his wife, the victim, was a hard working and respected woman. There is considerable feeling against him.

Miss Celena Le Vond is seriously ill, the result of an abscess on her right side. She will be taken to Paducah by her father Saturday to undergo an operation for its removal.

The Boston Store is moving from its uptown location to new and larger quarters, corner Third and Perry streets.

Mr. and Mrs. C. C. Roberts leave in a few days for Los Angeles, Cal., to spend the winter.

The Metropolis concert band will give a concert between now and the 25th inst.—exact date not known—at the Methodist church, benefit of the band. The program will alternate with vocal and instrumental selections, both popular and classical. As it will be given for benefit of the organization it should be well patronized.

For over two weeks Metropolis citizens had enjoyed a new sensation—one so entirely new that the police officers and city judge had been decided to give up and quit. In other words a moral spasm seems to have hit the town, as up until Wednesday morning not an arrest worthy of note had been made.

A Creeping Death.
Blood poison creeps up towards the heart, causing death: J. E. Stearns, Belle Plaine, Minn., writes that a friend dreadfully injured his hand, which swelled up like blood poisoning. Bucklen's Arnica Salve drew out the poison, healed the wound and saved his life. Best in the world for burns and sores. 25c at W. B. McPherson's drug store.

NEW WALK
Is Now Being Built by the City Authorities.

This morning work on the plank walk from Ridge street to the McKinley school in Mechanicsburg, began and will be pushed to rapid completion.

The board saw the necessity of building such a walk for the accommodation of the several hundred pupils who have to come to that school. In the winter seasons the mud is fearful and the children are unable to walk around the school to get to school.

The Commercial club of the High school will meet Nov. 10 in S. D. Lett's office. The club is composed of pupils who study German and all events are called on by a German.

Miss Anna Smith, of Louisville, who has been called to the school here failed to arrive last night but is expected today. She will teach in Miss Newell's place.

Accomited On Four Charges.
Hon. James H. Garnett returned home Saturday afternoon from Princeton where he has been for several days past defending E. H. Daniels of the charge of arson against him in the Caldwell circuit court, says the Cadiz Record. Four of the charges were disposed of, Mr. Daniels being acquitted in each charge. There are three other charges against him, which are set for trial at the next March term of circuit court. The indictments grew out of the number of fires that have visited Princeton during the past few years. Mr. Daniels is one of the oldest and most prominent men in Caldwell county.

The nice increase in our business since the first of the year is very encouraging to us.

THEORIES ABOUT FOOD.

Also a Few Facts On the Same Subject.

We hear much nowadays about health foods and hygienic living, about vegetarianism and many other fads along the same line.

Restaurants may be found in the larger cities where no meat, pastry or coffee is served and the food cranks in his glory, and arguments and theories galore advanced to prove that meat was never intended for human stomachs, and almost make us believe that our sturdy ancestors, who lived four-score years in robust health on roast beef, pork and mutton must have been grossly ignorant of the laws of health.

Our forefathers had other things to do than formulate theories about the food they ate. A warm welcome was extended to any kind, from bacon to acorns.

A healthy appetite and common sense are excellent guides to follow in matters of diet and a mixed diet of grains, fruits and meats is undoubtedly the best.

As compared with grains and vegetables, meat furnishes the most nutriment in a highly concentrated form and is digested and assimilated more quickly than vegetables or grain.

Dr. Julius Remission, on this subject, says: "Nervous persons, people run down in health and of low vitality should eat meat and plenty of it. If the digestion is too feeble at first it may be easily corrected by the regular use of Stuart's Dyspepsia Tablets after each meal. Two of these excellent tablets taken after dinner will digest several thousand grains of meat, eggs or other animal food in three hours, and no matter how weak the stomach may be, no trouble will be experienced if a regular practice is made of using Stuart's Dyspepsia Tablets, because they supply the pepsin and diastase necessary to perfect digestion, and every form of indigestion will be overcome by their use."

That large class of people who come under the head of nervous dyspepsia should eat plenty of meat and insure its proper digestion by the daily use of a safe, harmless digestive medicine like Stuart's Dyspepsia Tablets, composed of the natural digestive principles, pepsin, diastase, fruit acids and salts, which actually perform the work of digestion. Cheap cathartic medicines, masquerading under the name of dyspepsia cures, are useless for indigestion, as they have absolutely no effect upon the actual digestion of food.

Dyspepsia in all its many forms is simply a failure of the stomach to digest food, and the sensible way to solve the riddle and cure the dyspepsia is to make daily use of meat and a preparation like Stuart's Dyspepsia Tablets, which is endorsed by the medical profession and known to contain active digestive principles.

MINES DAMAGED

Small Blaze at Mines of the West Kentucky at Sturgis, Ky.
Sturgis, Ky., Nov. 10.—No little excitement was caused here when the Warlow or U. S. mine, now the West Kentucky, was reported on fire. All of the office force in town turned out with many others, and the fire was soon under control, having burned the blacksmith and machine shop and a little, with a probable loss of \$3,000. Mr. Hatcher, the superintendent, has not said how the fire originated, nor is it probable he knows.

WORSE THAN A CANCER.

A cancer means death. But there are conditions far worse even than death. Cancerous diseases can at least be treated, and the foul discharges disposed of satisfactorily; but when the mucous membrane becomes inflamed by Catarrh there is no opportunity of treating the parts.

The sufferer, in the first stages, before the cold becomes chronic, can secure a quiet state of mind by frequent use of his handkerchief; but the dreadful "dripping down" into the throat finally sets in, and the victim is absolutely helpless.

PORTER'S CATARRH-O immediately relieves all discharges both outward through the nose, and inward into throat. A single box usually cures, and the first application relieves that dreadful "dripping down." No cocaine, no opiates, no narcotics. CATARRH-O simply cures by its antiseptic properties. Price, 50c. Brewster's Millions

Copyright, 1904,

& Company

By GEORGE BARR M'CUTCHEON
(RICHARD GRAVES)

(Continued From Yesterday.)

Colonel Brewster's dignity relaxed amazingly when he caught sight of the young man. He came forward to meet him, and his greeting almost carried Monty off his feet.

"How did you do it, my boy?" cried the colonel. "She's off a point or two now, I believe, but half an hour ago she was booming. Good, I never heard of anything more spectacular!"

Monty's heart was in his mouth as he rushed over to the ticker. It did

His getting almost carried Monty off his feet.

not take him long to grasp the immediacy of the disaster. Gardner had bought in at 100, and that very action seemed to put new life into the stock. Just as it was on the point of breaking for lack of support along came this sensational order for 10,000 shares, and there could be but one result. At one time in the morning Lumber and Fuel, traded in by excited holders, touched 112 1/2 and closed in a fair way to hold firm around that figure.

Other men came up and listened eagerly. Brewster realized that his dash in Lumber and Fuel had been a master stroke of cleverness when considered from the point of view of these men, but a catastrophe from his own.

"I hope you sold it when it was at the top," said the colonel anxiously.

"I hesitated for a moment to sell only when I gave the word," said Monty

laurel. Several of the men looked at him in surprise and disgust.

"Well, if I were you I'd tell him to sell," remarked the colonel coldly.

"The effect of your plunge has worn off, Brewster, and the other side will drive the price down. They won't be caught napping again either," said one of the bystanders earnestly.

"Do you think so?" And there was a note of relief in Monty's voice.

From all sides came the advice to sell at once, but Brewster was not to be pushed. He calmly lit a cigarette and with an assured air of wisdom told them to wait a little while and see.

"She's already falling off," said some one at the ticker.

When Brewster's bewildered eyes raked over the figures the stock was quoted at 112. His sigh of relief was heard, but unheeded. He might be saved after all. The stock had started to go down, and there seemed no reason why it should stop. As he intended to purchase no more, it was fair to assume that the backbone was at the breaking point. The crash was bound to come. He could hardly restrain a cry of joy. Even while he stood at the ticker the little instrument began to tell of a further decline. As the price went down his hopes went up.

The bystanders were beginning to be discouraged. "It was only a fluke after all," they said to each other. Colonel Brewster was appealed to urge Monty to save himself, and he was on the point of remonstrance when the message came that the threatened strike was off and that the men were willing to arbitrate. Almost before one could draw breath this startling news began to make itself felt. The certainty of a great strike was one of the things that had made Brewster sure that the price could not hold. With this danger removed there was nothing to jeopardize the carrying power of the stock. The next quotation was a point higher.

"You sly dog!" said the colonel, digging Monty in the side. "I had confidence in you all the time!"

In ten minutes' time Lumber and Fuel was again up to 113 and soaring. Brewster, pale as death, rushed to the ticker and called up Gardner.

The broker, hoarse with excitement, was delighted when he recognized Brewster's voice.

"You're a wonder, Monty! I'll see you after the close. How did you do it?" shouted Gardner.

"What's the price now?" asked Brewster.

"One thirteen and three-fourths and going up all the time! Hooley!"

"Do you think she'll go down again?" demanded Brewster.

"Not if I can help it."

"Very well, then, go and sell out!" roared Brewster.

"But she's going up like—"

"Sell, hang up! Didn't you hear?" Gardner, dazed and weak, began selling and finally liquidated the full line at prices ranging from 114 to 112 1/2. But Monty's Brewster had cleared \$58,000, and all because it was he and

not the market that got excited.

CHAPTER XI.

IT was not that he had realized heavily in his investments which caused his friends and his enemies to regard him in a new light. His profit had been quite small as things go on the exchange in these days. The mere fact that he had shown such foresight proved sufficient cause for the reversal of opinion. Men looked at him with new interest in their eyes, with fresh confidence. His unfortunate operations in the stock market had restored him to favor in all circles. The man, young or old, who could do what he had done with Lumber and Fuel well deserved the new promises that were being made for him.

Brewster hobbled uncertainly between two emotions, elation and distress. He had achieved two kinds of success, the desired and the undesired. It was but natural that he should feel proud of the distinction the venture had brought to him on one hand, but there was reason for despair over the acquisition of \$50,000. It made it necessary for him to undertake an almost superhuman feat—increase the number of his January bills. The plans for the ensuing spring and summer were dimly getting into shape, and they covered many startling projects. Since condoning some of them to Nipper Harrison that gentleman had worn a never decreasing look of worry and anxiety in his eyes.

Twice added to his despair a day or two after the Stock Exchange misfortune. He brought up the information that six splendid little puppies had come to bless his Boston terrier family, and Joe Bragdon, who was present, enthusiastically predicted that he could get \$100 apiece for them. Brewster loved dogs, yet for one single horrible moment he hesitated to measure the helpless little creatures. But the old affection came back to him, and he hurried but with Bragdon to inspect the brood.

"And I've either got to sell them or kill them," he groaned. Later on he in principal Bragdon to sell the pups for \$25 apiece and went away, ashamed to look their proud mother in the face.

Fortune smiled on him before the day was over, however. He took Subway Smith for a ride in the "green juggernaut," and "weather and" had quite notwithstanding. Monty lost control of the machine and headed for a subway excavation. He and Smith saved themselves by leaping to the pavement, sustaining slight bruises, but the great machine crashed through the barricade and dropped to the bottom of the trench far below. To Smith's grief and Brewster's delight the automobile was hopelessly ruined, a clear loss of many thousands. Monty's joy was short lived, for it was soon learned that three luckless workmen down in the depths had been badly injured by the green monster from above. The mere fact that Brewster could and did pay liberally for the relief of the poor fellows afforded him little consolation. His carelessness and possibly his indifference had brought suffering to these men and their families, which was not pleasant to look back upon. Lawyers were avoided by compulsion. Each of the injured men received \$1,000.

You Must Sleep.

If you cannot, it is due to an irritated or congested state of the brain, which will soon develop into nervous prostration.

Nature demands sleep, and it is as important as food; it is a part of her building and sustaining process. This period of unconsciousness relaxes the mental and physical strain, and allows nature to restore exhausted vitality.

Dr. Miles' Nervine brings refreshing sleep, because it soothes the irritation and removes the congestion.

It is also a nerve builder; it nourishes and strengthens every nerve in your body, and creates energy in all the organs.

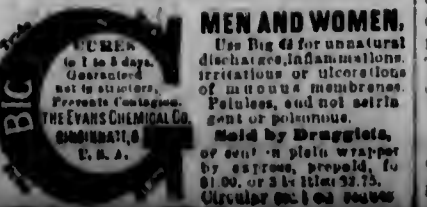

Nothing will give strength and vitality as surely and quickly as Dr. Miles' Nervine.

"During the past winter I had two attacks of La Grippe which left me very weak, and in bad condition. I was so nervous I could not sleep. My wife, after trying different remedies, went for a doctor. The doctor was out, and a neighbor recommended Dr. Miles' Nervine, and also brought home a bottle. I had not slept for some time, and had terrible pains in my head. After taking a few doses of Nervine the pain was not so severe, and I slept. I am now taking the second bottle, and am very much improved."

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

GOOD HEALTH IS ESSENTIAL

TO EVERY FORM OF USEFULNESS.

Will the sale of Payne's Remedies reach the same astonishing figures in Paducah as in other cities?

This is the question being asked by people who have closely followed the work of Payne in this city, and apparently the answer is being found in the record the remedies are making.

Although it has been several weeks since the preparations were first introduced in Paducah, the public interest is increasing and crowds in which almost every class of citizens is represented visit Smith & Nagel's drug store daily to talk with Payne. What is a Dollar?

Compared With Good Health? Mrs. Grinnell called and expressed her thanks and said: "For ten years I have been a great sufferer from Catarrh. My sense of smell was gone, I could not rest well at night, and was always tired when I got up in the morning. I had a dull, heavy headache. My head was stopped up and the mucus from the head dropped into the throat, and I would cough up great chunks of phlegm. I used one bottle of the Payne's New Discovery and I was surprised at the result. My head was cleared at once, my sense of smell was restored as if by magic and my sleep is now sound and refreshing."

Not only do people tell Payne about these cases, but each mail brings written statements of the character to Smith & Nagel's drug store, and it is said that the remedies are becoming as popular throughout the state as they are in this city.

GRIP-IT: the cold-cure that does the work in a hour, and will not make you sick. Try it!

At this time every one was interested in the charity bazaar at the Astoria. Society was an exhibition, and the public paid for the privilege of gazing at the men and women whose names filled the society columns. Brewster frequented the booth presided over by Miss Drew, and there seemed to be no end to his philanthropy. The bazaar lasted two days and nights, and after that period his account book showed an even "profit" of nearly \$500. Monty's recently, however, was considerably ruffled by the appearance of a new and aggressive claimant for the smiles of the fair Barbra. He was a Californian of immense wealth and unbounded confidence in himself, and letters to people in New York had given him a certain entree. The triumph in love and chance that had come with his two-year voyage and he had demolished every vestige of timidity that may have been born with him. He was successful enough in the world of finance to have become four or five times a millionaire, and he had fared so well in love that twice he had been a widower. Rodney Grimes was starting out to win Barbra with the same dash and impulsiveness that overcame Mary Farrell, the cook in the mining camp, and Jane Boothroyd, the school teacher, who came to California ready to marry the first man who asked her. He was a penniless prospector when he married Mary, and when he led Jane to the altar she rejoiced in having captured a husband worth at least \$50,000.

He visited with Brewster in patronizing Barbra's booth, and he rushed into the conflict with an impetuosity that seemed destined to carry everything before it. Monty was brushed aside, Barbra was pre-empted as if she were a mining claim, and ten days after his arrival in New York Grimes was the most talked of man in town. Brewster was not the sort to be dispirited without a struggle, however. Recognizing Grimes as an obstacle, but not as a rival, he once more donned his armor and beset Barbra with all the zest of a champion who seeks to protect and not to conquer. He regarded the Californian as an impostor, and summary action was necessary. "I know all about him, Babes," he said one day after he felt sure of his position. "Why, his father was honored by the V. C. on the coast in '49."

"The Victoria cross?" asked Barbra innocently.

"No, the vigilance committee."

To Take Body Away.

A. F. Fene expects to leave for Jackson county, Ark., in a few days to take the body of his son for burial. The body is the one which caused so much talk recently, and which the father has kept at his shanty boat opposite the city for over a month.

When the body is cleared for action by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At W. H. McPherson's drug store, 25 cents.

BRAZIL THE LATEST TO HAVE A REVOLT

Good Sized Revolution Reported at Rio de Janeiro.

Mutiny of Garrison Started the Trouble and Many Have Been Slain.

FIRE ADDS TO THE EXCITEMENT

New York, Nov. 10.—A cable to the Herald from Buenos Ayres says: A revolution has just broken out on Rio de Janeiro against the Brazilian government.

It is both military and naval. The entire garrison of the capital has rebelled, and the squadron in the harbor has sided with the revolutionists and threatens to bombard the city.

One dispatch says that the trouble began with a mutiny of the garrison of the fort of Santa Cruz, due to the treatment of a sergeant by the officer in command. Col. Pedro was arrested and Maj. Frolo and an aide were killed. Troops were sent there to quell the mutiny.

At the Brazilian legation there is no news of the outbreak, but Brazilian residents here say that a revolution would not surprise them, as the chief of the last revolutionary attempt were recently pardoned, the principal leader being Lawo Sodre, who was very active.

Fire has destroyed the promenade along the beach and many chalets at Mair del Plata, a highly fashionable summer resort on the Atlantic, have been damaged.

The loss is estimated at 500,000 pesos. It is asserted that the fire was of incendiary origin.

Terrific Race With Death.

Death was fast approaching, writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at W. B. McPherson's drug store; price 50c.

BOARD OF WORKS

Held a Brief Meeting Yesterday Afternoon.

The board of public works met yesterday afternoon and ratified the action of City Engineer L. A. Washington in putting up a temporary plank drive way across Kentucky avenue at Third street.

The contractors had the street intersection in such a shape that it was impossible to drive across and something had to be done as the other side streets were as badly torn up for several squares. Engineer Washington put down the driveway yesterday without instructions and desired to have his action ratified by the board.

There being nothing else before the board it adjourned, the meeting lasting but a few minutes.

Constipation.

Health is absolutely impossible, if constipation be present. Many serious cases of liver and kidney complaint have sprung from neglected constipation. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, P. M., Bronson, Fla., writes, Feb. 12, 1902: "Having used Herbine I find it a fine medicine for constipation." 50c a bottle. Alvey & List.

Saved By Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes a cough lasts on so long you feel as if nothing but dynamiting would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her, so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep and finally cured her." Strictly scientific cure for bronchitis and its gripes. At W. B. McPherson's drug store. Price 50c and \$1.00; guaranteed. Trial bottle free.

Money in Timber Lands.

Fortunes have been made, (and can easily be made today,) by buying Arkansas rich river bottom land, heavily covered with timber, at a nominal price, holding the land for a few years and then selling the timber at twice the price the land and timber both cost, and then have the land cleared and sell it for five times the original purchase price and sometimes ten times the cost. We have a proposition of this kind in 1600 acres of land in Arkansas at only \$3.50 per acre. One-third cash, balance 1 and 2 years, at 6 per cent. This land when cleared will rent for \$5.00 per acre per year. Full particulars on request. Edgar W. Whittemore Real Estate Agency, Fraternity Building Both phones 835.

FORCED SALE!

Bad business forced S. A. Johns & Co., Tallula, Ia., to turn over their entire stock of Clothing and Furnishing Goods to satisfy the demands of creditors, who in turn sold the complete stock as it stood for CASH to us at 50 cents on the dollar. This purchase was an extremely large one for us; in fact the largest we have ever made, but we feel that the selling prices we are able to put on these goods will force it out of our house into the HANDS OF THE PUBLIC IN A SHORT TIME.
